An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Prior arts of record do not disclose a defect detection system for use in an image processing system. The defection system comprises: a microprocessor connected to a sensor that determines an amount and extent of imperfections on the film based on one or more reference sensor readings and enables a determination of whether remedial actions can be taken to make film having detected imperfections thereon suitable for processing which structurally arranged and functionally arranged as claimed in claims 1,14,33. Further prior arts of record do not disclose a method for identifying film suitable for digital image processing. The method comprises: determining if the measured imperfections on the film exceed reference sensor readings; and routing the film based on the sensor output depending on whether the film is suitable for digital film processing from film that is not suitable for digital film processing which structurally arranged and functionally operated as claimed in claim 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
